Sr.no	Particulars	Remarks
1.	Is Name Board Present	Yes
2.	Is security guard there	Yes
3.	Whether the address given is correct	Yes
4.	Company Products/ Services	The Company is currently engaged in manufacturing of Horizontal Directional Drilling (HDD) rigs, Diaphragm Drilling Rigs and Rotary Drilling Rig using trenchless technology and foundation equipment for the construction industry.
5.	Manufacturing process	The manufacturing process begins with the procurement and inspection of raw materials and bought-out components. Materials are then cut and fabricated as per design specifications. Some components undergo external job work before returning for quality checks. Fabricated parts are cleaned through a blasting process before being painted. Meanwhile, direct purchased components are inspected and sent either for painting or assembly. Painted and prepared parts are assembled in stages—semi, main, and final—followed by comprehensive quality testing. Finally, products undergo pre-delivery inspection and are dispatched along with necessary technical training.
6.	Discussion with Employees	Discussion held with Mr. Alpeshkumar Kanubhai Parmar, Company Secretary and Compliance Officer. The Managing Director of the Company Mr. Parth Rashmikanth Patel, elaborate on the entire manufacturing process.
7.	Accounts & Finance	Five employees in Accounts & Finance Department.
8.	Technology and Infrastructure	The company has adequate technology and infrastructure facilities to engage in the manufacture of variety of machines.
9.	Proposed Projects (If any)	NA
10.	Major Risks	Business is highly dependent on upon the efficient supply chain management of materials, parts and components. Business operations are subject to high working capital requirements.
11.	Security	Adequate security is available at Factory and Registered Office of the Company.

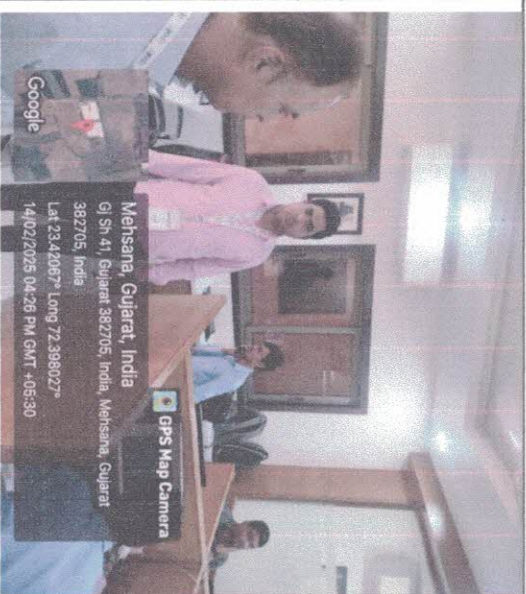

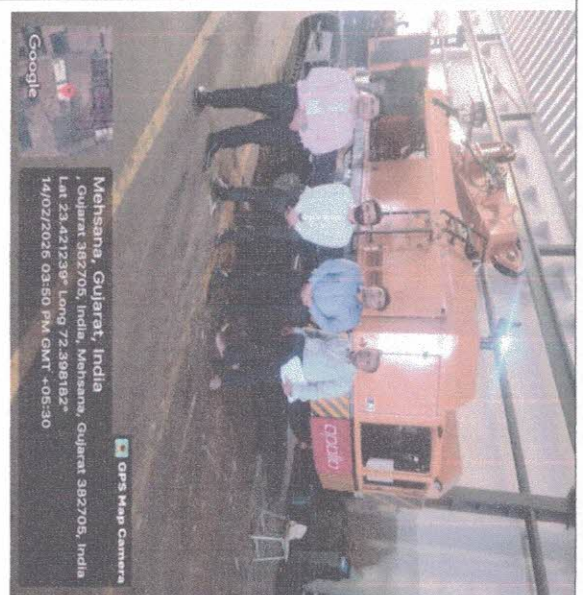

Comments: Based on the inspection we are satisfied that the Company has proper infrastructure facilities to carry on its business. Further all the infrastructure facilities as described by the Company are actually present at the site. Considering the financial, operational performance and an experienced track record of the promoters, we believe the company is fit for IPO.
